

ZAKVAN KK

Aspiring Data Analyst & Software Developer

8618962820

zakvanzakvan86@gmail.com

linkedin.com/in/zakvan-k-k

Bengaluru, Karnataka

Final-year BCA (Analytics) student who works comfortably on both sides of the stack — from SQL and Power BI to Java and REST APIs. Two internships and five shipped projects reflect a builder's instinct: clean the data, model the system, and ship something people actually use. Strong analytical thinking paired with practical software engineering skills in Java, Python, PHP, and JavaScript, backed by hands-on experience in dashboarding, API testing, and database-driven application development. Looking for a role where both strengths are valued equally.

Education

Year	Qualification	Institution	Percentage
2024-2027	BCA (Analytics)	Kristu Jayanti College, Autonomous, Bengaluru	73.4%
2022-2024	Class XII (PCMC)	SMS Vidyapeeta, Kodagu	74.5%
2022	Class X	SMS Academy of Central Education, Kodagu	62.5%

Internships / Experience

Software Development Intern

Kristu Jayanti Software Development Centre (KJSDC), Bengaluru

MAY 2026 - JUN 2026

- Developed backend features for a **Stall Management System** using **Java, MongoDB, and Vert.x**, supporting reliable data handling and application functionality.
- Used **Maven** for build and dependency management, maintaining consistent and efficient development workflows.
- Tested and validated backend APIs using **Postman** and contributed to debugging and defect resolution in **IntelliJ IDEA**.
- Collaborated through **Git/GitHub** in a team-based development environment, following version-control practices throughout the development cycle.

Data Analytics Intern

Skillbit Technologies, Bengaluru

JUL 2026 - SEP 2026

- Analyzed business datasets using **SQL, Python, and Excel** to identify trends and generate meaningful insights for data-driven decision-making.
- Cleaned, validated, and transformed raw datasets to improve **data accuracy, consistency, and reporting efficiency**.
- Developed interactive **Power BI dashboards** to visualize key business metrics and support faster, insight-driven decisions.

Position of Responsibility

- Qlik Datathon 2026 — Team Leader
- Data Analytics Internship, Skillbit Technologies — Team Leader
- KJSDC Software Development Project — Team Member
- MLH Hack Day @ Kristu Jayanti by Google Gemini — Team Leader

Extra-Curricular Achievements

Certifications	• Programming in Java — NPTEL, IIT Kharagpur • Digital Engineering — NASSCOM FutureSkills Prime • Data Analytics — Qlik • Google Analytics Certificate — Google • MongoDB Database Administrator — MongoDB • Artificial Intelligence — IBM SkillsBuild • Node.js Advanced — Udemy • The Complete Git Guide — Udemy
Achievements and Participations	• Participated in Qlik Datathon 2026 — collaborated on a data-driven problem-solving challenge. • Participated in MLH Hack Day @ Kristu Jayanti Google Gemini — engaged in collaborative hackathon development and technical problem-solving. • "Gen AI Launchpad: From Beginner to Builder" — two-day workshop by Innomatics Research Labs. • District-Level Chess Participant, 2nd PUC — represented the college at the district-level competition.
Clubs & Volunteering	• Open Day Event Organization — Kristu Jayanti University; coordinated activities for students and parents. • Xactitude (National-Level IT Fest) — supported event organization during the inter-collegiate technical fest. • KJ Student Developer Club by Google Developer Group — participated in technical learning and community activities. • OpenSource & Coding Club — participated in coding activities and collaborative software development. • Data Analytics Club — participated in data analysis, visualization, and business intelligence activities.
Projects	• Doctor Appointment Booking System — Developed a full-stack web application using PHP, MySQL, HTML, CSS, and JavaScript, featuring user authentication, email OTP verification, doctor management, and appointment booking/cancellation. • Big Sales Report - Power BI Dashboard — Developed an interactive dashboard using Power BI, DAX, and Power Query to analyse sales performance, profitability, order trends, and business insights. • Stall Management System - KJSDC — Collaborated with a development team to build a backend-focused application using Java, MongoDB, and Vert.x, contributing to application functionality and backend implementation. • Live Weather Monitoring Dashboard - Automated Data Pipeline & Power BI — Built an automated pipeline using Python, OpenWeatherMap API, and GitHub Actions to collect and update live weather data, with Power BI, Power Query, and DAX used for interactive dashboards across major Indian cities. • CampusHub — Student Super App (Capstone Project) — Architected a full-stack, multi-module campus platform unifying a marketplace, notes exchange, tutor booking, roommate/PG finder, ride-sharing, and event hub, with an AI layer (Python) for price

suggestions, recommendations, and fraud/lost-item detection; backend built on Java, REST APIs, and MongoDB/MySQL.

Additional Information

Languages Known	English (Proficient), Kannada (Proficient), Hindi (Spoken), Malayalam (Spoken)
Technical Proficiency	Java, Python, PHP, JavaScript, C, SQL, Power BI, MS Excel, DAX, Power Query, HTML, CSS, MySQL, MongoDB, Git, GitHub, Node.js, REST APIs, Postman, XAMPP
Soft Skills	Communication, adaptability, problem-solving, teamwork, emotional intelligence, and time management.
Willing to Relocate	Yes, open to Pan-India opportunities
